

## EYE SOOTHING CREAM

### Action:

It contains vegetal oils with emollient. It has a comforting action, as well as an anti-inflammatory action. It protects the sensitive skin around the eyes against the action of solar radiation. It has a moisturizing action. It delays the natural aging of the skin and it prevents its premature aging.

### Effects:

The skin becomes smooth, moisturized and soft.

### Apply:

Apply in the morning, after cleansing, on the sensitive skin around the eyes, massaging with your fingertips.

**Size: 30 ml**

## EYE SOOTHING GEL

### Action:

It forms a very thin film on the skin which prevents loss of water from the skin and it protects it against the aggressive action of the environment.

### Effects:

The skin becomes smooth, moisturized, relaxed and soft.

### Apply:

Apply in the morning after cleansing, alternating with the eye soothing cream, on the sensitive skin around the eyes; apply it uniformly with your fingertips.

**Size: 30 ml**
