

MOISTURIZING DAY CREAM FOR DRY SKIN

Action:

It recovers the lipid protective layer of the skin. It moisturizes and it protects the skin against the aggressive action of the environment (UV solar radiation, wind, frost, pollution). It stimulates cell regeneration. It delays the natural aging of the skin and it also prevents its premature aging. It is a good base for daily make-up.

Effects:

After applying it, the complexion becomes brighter and softer. By using it daily the skin regains its natural level of moisture and becomes supple, soft and less irritable.

Apply:

Apply it daily, in the morning, after cleansing with Gerovital H3 Prof. Dr. A. Aslan cleansing milk and tonic lotion, on the face and neck, massaging with your fingers.

Size: 50 ml
