

EXFOLIATING CREAM

Action:

It is recommended for oily and normal skin. It has a soft cleansing action. It removes dead cells from the the tough layer surface due to the action of the exfoliating micro granules and it frees pores and stimulates the exchange of nourishing substances of the skin. It delays the natural aging of the skin and it also prevents its premature aging.

Effects:

It leaves the skin clean, soft and bright.

Apply:

Apply once a week on the face and spread uniformly a thin coat with your fingertips. Avoid eyes and mouth areas. Let it work for 10-15 minutes. Remove it through a gentle massage. After, apply a Gerovital H3 Prof. Dr. A. Aslan tonic lotion for oily skin.

Size: 100 ml
