

CLEANSING MILK FOR OILY SKIN

Action:

It cleans any impurity and make-up and the sebum excess. It delays the natural aging of the skin and it also prevents its premature aging.

Effects:

It regulates the lipo-hydric balance of the skin. It leaves the skin clean, with a comfortable sensation of freshness.

Apply:

Apply daily in the morning and in the evening, on the face and neck, or during the day, whenever it is necessary to reapply make-up. Spread it uniformly, massaging with your fingertips. Remove through soft cleansing, using a sterile cotton pad or cleansing napkins. After, fortify your complexion using Gerovital H3 Prof. Dr. A. Aslan tonic lotion for oily skin. Recommended for normal skin too due to its balanced content of fat substances.

Size: 150 ml
