

EXFOLIATING CREAM

Action:

It removes dead cells from the tough layer surface because of the action of the exfoliating micro granules. It frees pores and stimulates the exchange of nourishing substances of the skin. It delays the natural aging of the skin and it also prevents its premature aging.

Effects:

It leaves the skin clean, soft and bright.

Apply:

Once a week, apply on the face a thin coat. Avoid eyes and mouth areas. Let it work for 10-15 minutes. Remove it massaging gently. Use with the "GerovitalH3 Prof. Dr. A. Aslan" Tonic Lotion for Oily Skin.

Size: 50 ml

WRINKLES DEFYING CREAM

Action:

It delays the natural aging of the skin and it prevents its premature aging. It substantially reduces the already formed wrinkles.

Effects:

The skin becomes smooth, soft and supple. After repeated applying, the shallow wrinkles disappear and the deep ones attenuate.

Apply:

Apply it in the evening, after removing make-up, on the sensitive skin around the eyes, on the forehead and around the mouth, massaging.
