

CLEANSING EMULSION FOR ACNEIC SKIN

Action:

It eliminates the acne bacteria and it stops its increasing process. It suppresses the microbial infections on the affected areas of the skin. It removes dead skin cells and cleans the sebum excess. It frees and purifies the pores, preventing the healthy pores from infecting. It prevents the walls of the pores from getting damaged and infected. It removes the make-up and impurities of the skin. It protects the skin against infections and irritations and it protects the sensitive face skin from the aggressive action of the environment and against UV solar radiations. It stimulates cell regeneration and blood circulation on sensitive nerve areas, at the peripheral level. It has an anti-fungal action, an anti-inflammatory and anti-septic action.

Effects:

It helps heal the scars and repair the tissue. It protects the unaffected skin areas from getting infected. It controls the sebum secretion, without a negative influence on the normal activity of the oil glands. It leaves the skin fresh and soft, with a comfort sensation and it maintains the lipo-hydric balance of the skin.

Apply:

Apply it every day, morning and evening, and whenever it is necessary to re-apply make-up. Use your fingers and massage gently the affected areas with circular ascending moves. Remove the emulsion with sterile cotton pads.

Size: 110 ml
