

## FACE CREAM FOR ACNEIC SKIN

### Action:

It helps eliminate the acne bacteria and it helps control the sebum secretion. It protects the skin against the aggressive action of the environment (UV radiation, wind, frost, pollution) and against infections. It blocks the access of the acne bacteria and impurities to the pores. It stimulates cell regeneration, it activates the blood circulation at the peripheral level and it regulates the pH of the skin to normal values. It protects the skin against excessive dehydration. It is quickly absorbed by the skin and it moisturizes deeply. It has an anti-fungal and an anti-inflammatory action. It is an excellent base for daily make-up.

### Effects:

It contributes on repairing scars and tissue. It controls the sebum secretion, without having a negative influence on the normal activity of oil glands. It leaves the skin hydrated and moisturized. It softens and relaxes the face skin. It maintains the lipo-hydric balance of the skin and it brings back the natural and healthy aspect to the skin.

### Apply:

Apply it every day in the morning, after cleansing with Cleansing Emulsion for Acne Skin. Use sterile cotton pads and massage the skin gently, especially affected areas.

**Size: 50 ml**

## PURIFYING POWDER FOR ACNEIC SKIN

### Action:

It contributes to eliminating the acne bacteria and to stopping the increasing process of the acne bacteria. It removes the lipids excess left after cleansing. It blocks the access of acne bacteria and impurities in the pores and it blocks the spreading of the acne bacteria. It protects the healthy pores from infecting, the walls of the pores from getting damaged, the skin against microbial infection, the skin at the contact with bed sheets during the night and it protects the skin against the allergies caused by the internal pillow composition. It has an anti-fungal, an anti-inflammatory and an anti-septic action.

### Effects:

It substantially increases the healing process of scars and tissue. It controls the sebum secretion, without having a negative influence on the normal activity of oil glands. It relaxes the face skin during the night and it leaves the skin with a pleasant sensation of calm and comfort.

### Apply:

Apply it daily, in the evening, after treatment with Tonic Lotion for Acne Skin. Use the powder on sterile cotton pads and apply it gently on affected areas. Let the powder work through the night. In the morning, clean the skin with Cleansing Emulsion for Acne Skin.
