

## Wrinkles Defying Cream with Aloe Vera

### Action:

- it suppresses the action of the free radicals resulted from solar UV radiations;
- it stimulates cell regeneration;
- it nourishes very dry and devitalized skin;
- it preserves the supple and elastic character of the epidermis;
- it prevents the premature aging of the skin;
- it prevents the premature appearance of the wrinkles;
- it delays the natural aging of the skin;

### Effects:

- it improves the natural protection of the skin against external factors, due to its natural components, Aloe Vera and vitamin E;
- it protects the skin against the aggressive action of the environment (pollution, wind, frost);
- it hydrates the skin;
- it confers a soft, supple and firm appearance to the skin;
- it delays and prevents wrinkle occurrence;

### Apply:

Apply it every day, morning and evening. After cleansing with Cleansing Milk with Aloe Vera, apply Wrinkles Defying Cream on the sensitive skin around the eyes. Use your fingers and massage gently with circular moves.
