CATMDCDRYAV

MOISTURIZING DAY CREAM FOR DRY SKIN WITH ALOE VERA

Action:

- All:**
- it deeply moisturizes the face and neck skin;
 - it blocks the access of bacterias and microbes to the pores;
 - it protects the skin against dehydration;
 - it has an anti-inflammatory and anti-septic action;
 - it stimulates cell regeneration;
 - it stimulates blood circulation at the peripheral level;
 - it prevents the premature aging of the skin;
 - it delays the natural aging of the skin;

Moisturizing Day Cream for Dry Skin / Oily Skin:

- it protects the skin against the aggressive action of environment (UV radiation, wind, frost, pollution) and it improves the natural protection of the skin against external factors, due to its natural components, Aloe Vera and vitamin E;
- it fights free radicals and it regulates the pH of the skin at normal values;
- it is an excellent base for daily make-up;

Nourishing Night Cream:

- it nourishes very dry, very devitalized skin;
- it protects the skin at the contact with bed sheets during the night and against the allergies caused by the internal pillow composition;

Effects:

- All:**
- it delays and prevents wrinkle occurrence;
 - it controls the sebum secretion, without having a negative influence on the normal activity of oil glands;
